Implementing Risk Management Frameworks in Web3 | Tokenomics Alchemist

Monterrey, Nuevo León, Mexico

## Summary

11+ years' experience in financial institutions, designing strategies for predictive / risk management model development and implementation. Experience with 7 programming languages, including Python, SAS, R, Solidity, JavaScript, React.

DeFi and blockchain enthusiast, I believe Web3 will be the future (we are not there yet!). Experience on project design, advising founders of 3 different projects on business strategy, funding, people management, marketing. Tokenomics alchemist, stress testing economies, so it doesn't stress later. Advocate for risk management frameworks in Web3 protocols.
